## Resume

Self-taught Frontend Developer with one year of experience and 4 months building personal projects. Proficient in HTML, CSS, JavaScript, and React, with a passion for creating functional, responsive, and visually appealing applications. Eager to join collaborative teams and contribute to impactful projects.

---

## Skills

- **Frontend:** HTML, CSS, JavaScript, React
  - **Tools & Technologies:** Vite, npm, Node.js, Firebase, VSCode
  - **Operating System:** Linux
  - **Version Control:** Git
- 

## Projects

### 1. Portfolio Web (Personal)

*Description:* A personal portfolio website that showcases my web

development skills, including the use of modern web technologies such as HTML, CSS, and JavaScript.

*Technologies:* HTML, CSS, JavaScript, Python, Nodejs.

*Result:* Successfully deployed with responsive design and smooth navigation for desktop and mobile users.

## 2. **CaloriePro (Personal)**

*Description:* A web application for tracking daily calorie intake. It features a public homepage and authenticated user pages with a personalized dashboard. Users can log food items, and their calorie count updates in real-time. The app resets calorie intake and clears the history at midnight to start fresh each day. There's also a modal for users to sign up or log in.

*Technologies and tools:* HTML, CSS, React, JavaScript, Edamam API, nodejs, Python, firebase, npm and vite.

*Status:* Currently in development to improve user experience and add new features.
